

# Nata de Coco

Nata de Coco is an organic food product –  
a specially developed nutrient and microbe mixture.  
Nata de Coco is excellent in yoghurt.

**NATA DE COCO** has high fibre content and is a low fat mixture  
with no cholesterol.

**NATA DE COCO** is made from coconut milk, coconut water, sugar,  
acetic acid. Nata de Coco is a specially developed  
nutrient and microbe mixture.

**NATA DE COCO** is an old Philippine invention and is at present mainly  
consumed in Asia.

**ORANA** has done research and development with the Nata de  
Coco product, and we are looking forward to  
presenting the result of this development work to you.

**ORANA** has developed a series of fruit preparations for yoghurts  
with Nata de Coco.

**ORANA** has the following variants available,

- Blackcurrant
- Carrot
- Mango
- Natural
- Pineapple
- Strawberry
- **and many others**

Contact ORANA – we will be pleased to supply samples and further information.
